# STUDENT LIFE

This country has a wonderful culture, largely influenced by its rich history. Germans appreciate hard work, perfectionism, and precision, which is why they might seem antisocial at first, but once you get to know them you will find they are actually quite friendly. Germans are very welcoming of international students, so you do not have to worry about the comfort you will be provided with.

ABROAD

# ELIGIBILITY CRITERIA

Higher education entrance qualification  
If your school-leaving certificate is not recognized in Germany, you will be required to attend a one-year preparatory course known as Studienkolleg.

Some universities also require an aptitude test, known as TestAS, which is a test specifically designed for international students from non-EU countries.
